

TURN PROTECTION INTO PROFIT

Build equipment protection
into every HVAC system.
And more value into
every job.

Today's HVAC systems are more advanced, connected and expensive than ever. DiversiTech® makes it easy to build protection into every installation with a complete portfolio of solutions designed to help protect equipment from damaging power events and support long-term reliability.

EQUIPMENT PROTECTION SOLUTIONS

SURGE PROTECTION

Protects sensitive electronics from voltage spikes that can quickly damage critical components.

VOLTAGE MONITORING

Continuously tracks incoming power and shuts equipment down before a bad electrical event turns into a callback.

HARD START KITS

Gives the compressor the extra torque it needs to start reliably, cutting down on unnecessary service calls.

SOFT START KITS

Reduces the power required to start an A/C unit, easing strain on the compressor and extending equipment life.

MORE PROTECTION. MORE VALUE FOR EVERY INSTALL.

Increase revenue opportunities on every job

Fewer callbacks, more satisfied customers

Backed by a name your customers already trust

ONE PARTNER FOR THE COMPLETE HVAC/R SYSTEM

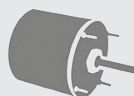

Equipment Mounting

Tools

Condensate Management

Electrical & Replacement Parts

Components & Consumables

Indoor Air Quality

Thermostats

Equipment protection is one more way DiversiTech supports you – from install and repair to maintain and control – from the same trusted source you know for HVAC/R equipment mounting, components, tools, and more.
