

PROTECT ONE OF YOUR BIGGEST INVESTMENTS

Power surges, voltage
fluctuations, and everyday
wear can put your HVAC
system at risk. Give it the
protection it deserves.

Today's HVAC systems rely on advanced electronics and components that can be vulnerable to damaging power events.

DiversiTech® offers a complete range of equipment protection products designed to help safeguard your system, reduce the risk of costly repairs, and keep your home comfortable.

EQUIPMENT PROTECTION SOLUTIONS

SURGE PROTECTION

Helps protect sensitive HVAC electronics from damaging voltage spikes and burned out control boards.

HARD START KITS

Gives your compressor an extra boost during startup, helping improve starting reliability and extending the life of your system.

VOLTAGE MONITORING

Continuously monitors incoming power and shuts down system when unsafe voltage conditions are detected, helping prevent equipment damage.

SOFT START KITS

Reduces the electrical surge during compressor startup, reducing the need to replace parts while making it easier to run on backup generator power.

PROTECTION THAT PAYS OFF

IN PEACE OF MIND

Help protect one of your home's biggest investments

Reduce the risk of costly repairs and unexpected downtime

Support reliable performance and longer equipment life

PROTECTION FROM A NAME HVAC PROFESSIONALS TRUST

HVAC professionals rely on DiversiTech® products every day. Now you can have the same trusted quality protect the comfort of your home.
